Dear participant to the CRL school 2019,

we are very pleased to invite you to join the Geohazards Exploitation Platform (GEP), as part of your CRL school 2019 activities.

You can register on GEP from here:

<https://geohazards-tep.eu>

After your account creation and first login, you will receive a notification email with further guidance, to confirm that your GEP account is linked to your Terradue Cloud Platform account.

This will grant you the access to your [CRL School GEP discussion forum](#). This environment will be your privileged channel to

request guidance and provide feedback during your activities on the Platform.

Welcome on board !  
With our best regards

**Emmanuel Mathot** / Research & Innovation
