

POINTS – TASKS of the CRL Coordination meeting 2020

July 18th, 2020 via zoom

Brief overview of the activity of the Observatory from June 2019 to June 2020 and introduction of the working programme of the day

- Unification of the telemetry systems (1)¹
- Official faults (1)
- a global vision of the observatory as a united Observatory in terms of funding, we don't know how much is the cost of the observatory - economic model (1)

Considering the 2019 meeting minutes, discussion and reassignment of the discussed tasks

- establish a mail list, so every time a group goes to the field, it's good to communicate with other members of the CRL group (2-3)
- Role of each partner in the case of occurrence of a seismic event. (2)
- For seismology it is very important to densify the network in case of an earthquake (3)
- A pool of portable stations (4)
- HELPOS established a roadmap for deploying seismometers after an earthquake? (4)
- Inventory list of all the sites which have been occupied in a kind of non-permanent way, in order that those will be also a priority targets for the seismic survey (5)
- Agreement between us for loaning instruments and replace the broken ones until the station is repaired (5)
- unification of the rebooting of the system of the stations (6)
- coordination between the institutes to provide a quakeml (6)
- Link to CRL portal of earthquake catalogs (6)
- RASMON – CORSSA networks. Distribution through the Hellenic unified seismic network in real time (7)
- Situation of borehole strainmeter??? and its strong motion (7-8)
- Diameter of the borehole (8)
- Link to the portal of meteo stations (8-9)
- Information of the various instruments in the CRL portal (8)
- Communication with A. Tselentis about the borehole (9-10)
- Real time GNSS (10)
- All GNSS solutions be visible in the CRL portal (10-12)

Link with EPOS & compliance with EPOS data & products, data & products portals, CRL DOIs, web portal & observatory

¹ Reference to the page number of the “Detailed minutes of the CRL Coordination meeting 2020”, inside parentheses

- Unification of doi (13)
- Maintenance - Legal structure at the needs of NFO CRL, attached to maintaining equipment (13-16)
- Common platform for maintenance recording (16-18).

Maintenance actions during last year and raised issues. Sustainability of the CRL including stations

- For the CRL website, Information about strainmeters, tide gauge and meteo stations (22)
- Reports for the maintenance in CRL portal (22)

Monthly informational bulletin

- Monthly or longer period? (22)
- Newsletter for CRL? (23)
- In plain language? (23)

Governance and funding of the Observatory, scientific council, administrative issues.

- Four pillars for funding (16, 24)
 - EPOS-ERIC.
 - HELPOS
 - HORIZON
 - ELIDEK
- Third effort of MOSAIC (24)
- Organize internships reciprocally between France and Greece and also with Czech Republic and other countries that participate in CRL (24)
- Independent scientific council with people outside from CRL (24)
- COST proposal (24)
- Sign of the consortium agreement: Valais from Switzerland and Marmara from Turkey. Iceland, Trieste and Czech Republic (25)
- NFOs Advisory Committee (25)
- Vp/Vs service (27)

Education, public outreach and CRL School

- Documentary for the Gulf of Corinth (27-28)
- Working group to work on the connection between universities and make an inventory of what exists -Dissemination of the list (28)
- Channels to disseminate the CRL School for students and secondary education teachers (29)
- Unification of seismic catalog to CRL one (29)
- Special intermediate seismological meetings (29)
- Special intermediate technical meetings (29)
- Satellite component in CRL and more visibility in the web portal (30)
- Off-shore component in CRL and more visibility in the web portal (30)
- DAS measurements (30)
